

Nurse Clinics Our team of highly experienced Veterinary Nurses offer a wide range of free services that are beneficial to your pet's well-being. From nail clipping and rabbit health checks to postoperative care and suture removal, our nurses are here with help and advice towards your pets' routine healthcare. Guidance is given on worming, flea treatments, nutrition, weight control and exercise. For those pets that are diabetic, support is at hand whenever you should need it, and elderly pets can visit for tips on special care in their senior years. Puppies and kittens can see the nurses for their second vaccinations, with information available on PETS Passports and microchipping. They will even show you how to clean your pet's teeth!

Our FREE Nurse Clinics are available by appointment
Monday to Friday
 11am - 11.30am
 2pm - 6.30pm
Saturday 9am-10am
 All our nurses are either qualified and registered or completing a degree in Veterinary nursing. Students work under the guidance of a qualified member of staff.

A caring and personal service for you and your pets

At Abbey Vet Centre your pets are our number one priority. We understand just how important they are to you; so if you have been looking for that individual veterinary attention for your much-loved family pet, then look no further.

This long-established veterinary practice has been serving the animal community of Shrewsbury and surrounding areas, for over thirty years. Our friendly, experienced and professional team of staff, ensure the provision of the highest level of veterinary care and client service. We actively promote that all-important preventative healthcare, to help keep pets healthy and happy. Should you have any concerns regarding your pets, we are here for advice or even just reassuring chat. So from major surgery to routine vaccinations, our team are fully committed to providing first class veterinary treatment. We look forward to meeting you, and caring for your pets as if they were our own.

Veterinary Surgeon Karen Potterton BVMS MRCVS

Karen qualified from Glasgow University in 1993. Over the years, she has gained a great deal of experience working with a variety of animals, such as tiger cubs and crocodiles, while at Chester Zoo. However, since joining us in November 2001, Karen now cares for the more domestic species of the animal world, and finds it very satisfying seeing poorly animals recover back to full health. She enjoys all aspects of her job particularly operating, and has a keen interest in animal behaviour. Karen became a director here at Abbey Vets in 2004, and continues to focus on managing the practice to provide all our clients and their pets, with the best care possible.

Healthy Pet Club

Cutting the cost of veterinary care

Dogs, Cats and Rabbits; join our club to **spread the cost** of your lifetime preventative care. Members also benefit from health checks, dietary advice plus **great discounts** on selected medication, food, products and services. You are welcome to join at **any age, no health check and no minimum sign up period** is required.

Annual vaccination

12 months flea treatment

12 months worming treatment

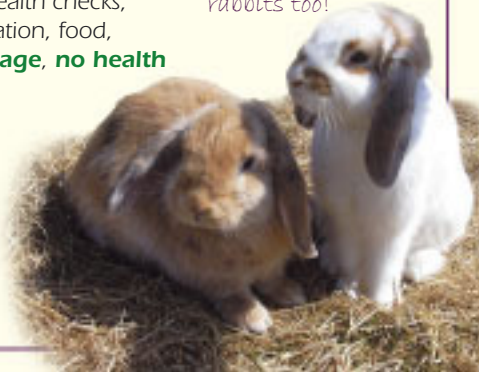

Two full veterinary health checks a year

Reduced monthly payment for multiple pets

Optional home visits by our clinical team to administer preventative treatments

Please call us or ask at reception for full details.

There's a club for rabbits too!

Our fully equipped on-site facilities are truly beneficial to your pets. They enable us to diagnose and treat our patients quickly and accurately.

Operating Theatre

Our sterile theatre, houses a complete range of equipment, for a comprehensive range of surgical procedures in all routine and emergency cases.

Prep Room

Where patients are prepared for their treatment before going into theatre, and a safe location to monitor their recovery period from anaesthetic. Equipped for routine dental procedures and with portable anaesthetic machine.

In-House Laboratory

To perform a wide range of diagnostic haematology, biochemistry and electrolyte tests, for rapid and accurate results.

Ultrasound

Our brand new portable Ultrasound Scanner, allows the vet to see in detail, your pets' organs and soft tissue to assist with a quick and precise diagnosis.

X-Ray Unit

Provides images of fractures, arthritis, cruciate problems, or the unusual objects that pets do sometimes have a tendency to swallow.

Wards

If your pet requires hospitalisation, you can feel confident they are safe and comfortable while away from home. Trained nursing staff, provide excellent care and gentle reassurance during their post-operative, treatment or recovery period.

Pharmacy

We stock a wide range of medical, routine health care products and prescription diets for your pet. Any product not in store can be ordered for the following day.

Cat only days

Appointments and operating specifically for our feline friends.

Rabbit Friendly

Advice on vaccinations, nutrition, dental care plus full health checks.
